Small Job Finder Release Plan
EzWork
team.cry()
Before-An-Alpha Release
Ends 2/2/2018
Revised #1 1/23/2018

High Level Goals

- Be able to create an account for job finders and job listers
- Be able to find local jobs posted by job listers
- Be able to customize accounts
- Be able to upload resumes to job finder accounts and have it accessible to job listers
- Be able to filter jobs through types (1), such as "waiter" or "salesman", and length (2), one time or part-time
- Create a system where job listers may interview job finders
- Protect the privacy of both finders and employers before successful job match occurs

User Stories

Sprint Plans

Sprint 1

- As developers we want to familiarize ourselves with HTML, CSS, JavaScript for the front-end of the product and FireBase for back-end (not limited to listed languages)
- As a user, I want to be able to visit a home page for SJF
- As a user, I want to be able to see a sample job posting page for SJF
- As a user, I want to be able to create an account, which would be as either an employer or finder

Sprint 2

- As a finder, I would like to be able to customize an account-bound profile with personal information
- As an employer, I would like to be able to customize an account-bound profile with location and contact information
- As an employer, I would like to be able to post jobs openings after inputting the specifications of the job
- As a user, I would like to navigate through the front end efficiently

Sprint 3 & 4
- As a finder, I would like to be able to search through job postings (basis?)

Product Backlog
- As an employer, be able to interview and visually connect with job finders via video call
- As a finder, be able to view jobs on a map to determine distance and working feasibility
- As a user, be able to create a rating system for job listers and job finders
- As a user, be able to record or upload a short video to talk about myself
- As a finder, I would like to be able to post a small amount of public information so that companies can search for me (does not include personal/contact information!)
- As an employer, I would like the option to search through the public profiles of finders for a potential match rather than posting a job
